

Refined calculations and New Design

Study	Citation (APA 7 th Edition)	Key Focus/ Notes
An overview on desalination and water treatment	Jakhar, R., & Styszko, K. (2025). Recent trends in emerging greywater management in India: An overview. <i>Desalination and Water Treatment</i> , 322, 101226. https://doi.org/10.1016/j.dwt.2025.101226	This study provides a comprehensive overview of recent trends in greywater management in India, including typical greywater characteristics, treatment methods, and challenges.
Water Demand in India	<i>Water Demand</i> . (2022). Pib.gov.in. https://www.pib.gov.in/PressReleasePage.aspx?PRID=1812002	This Press Information Bureau (PIB) release highlights that 65-70% of household potable water in rural India becomes greywater (estimated at 36 Lpcd), emphasizing its potential for reuse in non-potable applications and the importance of onsite management via the 3Rs (Reduce, Reuse, Recharge).
Performance of grey water treatment plant by economical way for Indian rural development	Jadhav, S. B. P., & Sane, M. G. (2011). Performance of grey water treatment plant by economical way for Indian rural development. <i>International Journal of ChemTech Research</i> , 3(4), 1808-1815.	This study presents an economical, hybrid laboratory-scale greywater treatment plant combining natural and physical operations for Indian rural development.
Exposure assessment of treated greywater reused for irrigation	Al-Hamaiedeh, H., & Bino, M. J. (2014). Exposure assessment of treated greywater reused for irrigation. <i>Water Science & Technology</i> , 70(8), 1391–1398.	This research assesses the health risks of using treated greywater for irrigation, finding that conventional treatment can reduce contaminants to safe levels for growing edible plants.
Effect of grey water application on physicochemical properties of tomato growing soil	Sarkar, S., & Singh, A. K. (2019). Effect of grey water application on physicochemical properties of tomato growing soil. <i>International Journal of Current Microbiology and Applied Sciences</i> , 8(09), 1055-1064	This study investigates the impact of greywater application on the physicochemical properties of soil used for growing tomatoes.

Annual Food Waste	Reshine Organisation (2025). <i>How much food is wasted in India annually?</i> - Reshine Organisation. [online] Reshine Organisation - Reaching The Unreached. Available at: https://reshineorg.com/how-much-food-is-wasted-in-india-annually/	Estimation on annual food waste from households
Sustainability Pathways	Sustainability Pathways: Projects detail. (2025). Fao.org. https://www.fao.org/nr/sustainability/food-loss-and-waste/database/projects-detail/en/c/210933/	Assumption estimates for biogas production
Biogas quality upgrade by simultaneous removal of CO ₂ and H ₂ S in a packed column reactor	Tippayawong, N., & Thanompongchart, P. (2010). Biogas quality upgrade by simultaneous removal of CO ₂ and H ₂ S in a packed column reactor. <i>Energy</i> , 35(12), 4531–4535. https://doi.org/10.1016/j.energy.2010.04.014	Assumptions on biogas quality
